

September 12, 2019

To Whom It May Concern:

Vanessa Peng has asked me to write a letter of recommendation on her behalf, and it is with much enthusiasm that I do so. For four months, between May 2019 and August 2019, Ms. Peng performed internship on the Notifications team at Ultimate Software as a Software Developer.

In her time at Ultimate Software, Ms. Peng has shown that she has the technical, organizational, and teamwork skills that make an excellent Software Developer. She has worked on various back-end related tasks in Java and has made valuable contributions to increase test case coverage of existing code base. She always looked for new opportunities to improve her technical skills by tackling different tasks. Ms. Peng played an important role integrating Notifications services with external teams at Ultimate Software. She never hesitated to reach out to external teams and achieve positive results with her great communicational skills.

Ms. Peng is a highly talented and a hard-working employee and she would be a great asset to have on any development team. With the right guidance and training, I have no doubt that she will be an invaluable addition to your company. Please don't hesitate to contact me for any further information. Thank you for your time.

Sincerely,

Ibrahim Iyidir
